DMYTRO SUKRUT

JUNIOR FULL-STACK DEVELOPER

Profile

Junior Full-Stack Developer and Computer Science student at the Technical University of Košice. I have practical experience with Java, Spring Boot, REST API, PostgreSQL and React, gained through building a full-stack clothing search application. I am motivated, responsible and eager to learn, with a strong interest in gaining real project experience and growing as a software developer.

Projects

Look Finder - Full-stack web application

Java, Spring Boot, REST API, PostgreSQL, React, JavaScript

- Developed a full-stack web application for clothing search and filtering.
- Implemented REST API endpoints for filtering products by category, gender and body measurements.
- Integrated PostgreSQL database for storing and retrieving product data.
- Processed external JSON data and displayed paginated results in React.
- Implemented local browser storage and vector-based similarity recommendation logic.

Technical skills

- Java and SpringBoot
- WEB Technologies (HTML, CSS, JS, TS, React + MUI, REST API, JSON)
- SQL (PostgreSQL)
- Python
- Git, Docker, Linux
- [My certificates and other documents](#)
